## BÀI TẬP MẪU 1 - OOP

```
Bài 1:
#include <iostream.h>
class date
      public:
             int day;
             int month;
             int year;
};
void main()
      date today;
      today.day = 25;
      today.month = 12;
      today.year = 2001;
      cout << "\n Ngay la "<< today.day<< "/";</pre>
      cout << today.month << "/" << today.year << endl;
Kết quả:
             Ngay la 25/12/2001
Bài 2:
#include <iostream.h>
class date
      private:
             int day;
             int month;
             int year;
      public:
             void getdate ()
                    cout << "\n Nhap vao ngay (dd): ";
                    cin >> day;
                    cout << "\n Nhap vao thang (mm): ";</pre>
                    cin >> month;
                    cout << "\n Nhap vao nam (yy): ";</pre>
                    cin >> year;
             } //ket thuc ham getdate
```

```
void display ()
                   cout << "\n Ngay la " << day << "/";
                   cout << month << "/" << year << endl;</pre>
             } // ket thuc ham display
};
void main()
      date today;
      today.getdate();
      today.display();
}
Kết quả:
             Nhap vao ngay (dd): 25
             Nhap vao thang (mm): 12
             Nhap vao nam (yy): 01
             Ngay la 25/12/01
Bài 3:
#include <iostream.h>
class Time
{
      private:
             int hours, minutes, seconds;
      public:
             void getinfo (void)
                   cin >> hours >> minutes >> seconds;
             } //ket thuc ham getinfo
             void display (void)
             {
                   cout<<hours<<':'<<minutes<<':'<<seconds<< endl;
             } // ket thuc ham display
      void addit( Time aa, Time bb)
                   hours = aa.hours + bb.hours;
                   minutes = aa.minutes + bb.minutes;
                   seconds = aa.seconds + bb.seconds;
                   //kiem tra seconds < 60
                   if( seconds >= 60)
```

```
{
                          seconds -= 60; // seconds = seconds - 60
                          minutes++; //minutes = minutes + 1
                   }
                   //kiem tra minutes < 60
                   if (minutes >= 60)
                   {
                          minutes -=60;
                          hours++;
                   }
      }
};
void main()
       Time one, two, three;
      cout << "\n Nhap vao thoi gian mot (gio phut giay): ";
      one.getinfo();
      cout << "\n Nhap vao thoi gian hai (gio phut giay): ";
      two.getinfo();
      three.addit(one, two);
      cout << "Ket qua la ";
      three.display();
}
Kết quả:
             Nhap vao thoi gian mot (gio phut giay): 12 30 53
             Nhap vao thoi gian hai (gio phut giay): 4 15 28
             Ket qua la 16:46:21
Bài 4:
#include <iostream.h>
class Student
       private:
             int mssv;
             int diem;
      public:
             void nhapthongtin ()
                   cout << "Nhap vao ma so sinh vien: ";
                   cin >> mssv;
                   cout << "Nhap vao diem: ";
```

```
cin >> diem;
             } //ket thuc ham nhapthongtin
      void xuatthongtin ()
             {
                   cout<<mssv<<'\t'<<diem<< endl;
             } // ket thuc ham xuatthongtin
      int xuatdiem()
             {
                    return diem;
             } // ket thuc ham xuatdiem
};// ket thuc lop Student
void main()
      Student dssv[100];
      float tong, diemtb;
      int soSV, i;
      tong = 0.0;
      cout << "\n Nhap vao so luong sinh vien: ";
      cin >> soSV;
      for (i=0; i < soSV; i++)
             dssv[i].nhapthongtin();
             tong = tong + dssv[i].xuatdiem();
      }
                          Diem"<< endl;
      cout << "Ma so
      for (i=0; i < soSV; i++)
      {
             dssv[i].xuatthongtin();
      diemtb = tong / soSV;
      cout << "Diem trung binh cac sinh vien = " << diemtb;</pre>
}// ket thuc ham main
Kết quả:
             Nhap vao so luong sinh vien: 3
             Nhap vao ma so sinh vien: 1
             Nhap vao diem: 13
             Nhap vao ma so sinh vien: 2
```

Nhap vao diem: 15

Nhap vao ma so sinh vien: 3

Nhap vao diem: 19

Ma so Diem

1 13

2 15

3 19
